Jun-2025 - Aug-2025

- Worked as a MERN Stack Developer Intern, building scalable web applications usingMongoDB, Express.js, React,
- and Node.js. Developed REST APIs, implemented responsive user interfaces, and collaborated on real-world projects to enhance performance, functionality, and user experience.

EDUCATION

GIIT Professional College
Bachelor of Computer Applications

2023 - 2027

- Pursuing Bachelor of Computer Applications with a strong foundation in
- programming, databases, and web development.

PROJECTS

CampusNest. 

2026 - 2026

- Developed a modern Student Housing Platform using Next.js and MongoDB, designed to bridge the gap between students and landlords.
- The application features a robust real-time chat system powered by Socket.IO.
- Interactive geographic property mapping is implemented with Leaflet.
- A comprehensive booking management workflow is included.
- Premium UI is achieved by leveraging Tailwind CSS.
- Optimized asset management is provided by Cloudinary.
- The platform offers a seamless, end-to-end experience for finding university-adjacent accommodations.

- Developed a modern Academic Resource Sharing Platform using React.js and MongoDB, designed to connect students and facilitate the sharing of academic resources.
- Implemented a robust real-time chat system using Socket.IO for seamless student-to-student communication.
- Integrated secure JWT authentication and OTP-based email verification using Nodemailer.
- Developed comprehensive resource management and wishlist workflows for discovering, saving, and managing study materials.
- Built a premium, responsive UI using Tailwind CSS and Framer Motion with smooth animations and interactions.
- Integrated Cloudinary for optimized document and media storage and management.
- Delivered a seamless end-to-end platform for discovering, sharing, saving, and discussing academic resources.

- Implemented secure OTP authentication using Brevo, custom OTP services, and hashed OTPs stored in MongoDB.
- Built interactive maps and location search using React-Leaflet, Leaflet.js, and reverse geocoding.
- Developed real-time provider tracking using WebSockets and React-Leaflet for active bookings.
- Built an Admin Dashboard with revenue, commissions, job statistics, and financial analytics.

- Developed a modern CCTV & Security Solutions website using Next.js, focused on showcasing surveillance products and services.
- Built a responsive, mobile-optimized interface with a clean and professional UI.
- Implemented SEO-friendly static pages to improve local search visibility and online presence.
- Integrated optimized product/service sections and lead-generation workflows for potential customers.
- Focused on performance, responsive design, and smooth user interactions across devices.

SKILLS

Passionate Web Developer and Semi Vibe Coder skilled in HTML, CSS, JavaScript, React.js, Next.js, Node.js, Express.js, MongoDB, and Redux Toolkit. Focused on building modern, responsive, and user-friendly web applications with clean, efficient code and polished UI/UX. Experienced in leveraging modern development tools and AI-assisted workflows to build scalable and engaging digital experiences.
